LONDON 12/03/20

Subject: COVID-19

Dear Customer,

Considering the growing worldwide spread of the Coronavirus (COVID-19), Apulia Blend Ltd t/as The Olive Oil CO has introduced significant measures to protect employees, business partners and all customers from possible contagion.

- Washing hand thoroughly for at least 20 seconds frequently
- Use hand sanitizer (although this is proving difficult to buy now due to shortage)
- Keep safe distance of 1mt
- Immediately notify doctor if there are any signs of the virus and stay at home, ie coughing, sneezing, breathing difficulties.
- Reduce time out to minimum, ie work or grocery shopping.
- All employees are restricted from travelling during this period

We continuously keep in contact with local authorities in order to keep updated with new guidance about the virus and prevention.

Finally, one very popular question

Can coronavirus be spread through food?

No. And don't just take our word for it (we also mention it in our article) but read up on the <https://www.efsa.europa.eu/en/news/coronavirus-no-evidence-food-source-or-transmission-route> from the European Food Standards Agency (EFSA).

Kind Regards

Danilo Manco
